

SPECIALS

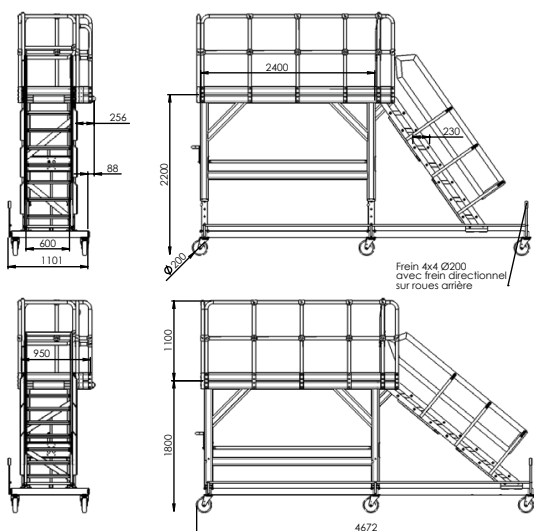

COD: 2001579

Height-adjustable mobile aluminium platform

- ✓ Designed for working around the sides of lorries.
- 1 Height adjustable from 1,800 to 2200 mm. Manually operated by a crank handle and a rack and pinion mechanism.
- 2 The platform access ladder operates in a parallelogram format that adapts its incline to the selected height.
- 3 Lever-operated brake system that locks all the wheels simultaneously.
- 4 The platform has a rubber profile with a narrow overhang of approximately 200 mm to prevent contact damage when it approaches and is positioned next to the vehicle.
- 5 Equipped with guardrails and an automatic door to ensure the safety of workers.
- 6 Designed to accommodate two people working at the same time.
